RIDGE AND FURROW ROOFS, GREENHOUSES, RAILWAY STATIONS, ENGINE SHEDS, MILLS, MARKET HALLS, AND PUBLIC BUILDINGS GENERALLY.

ROUGH PLATE GLASS THAT COMBINES SIZE AND STRENGTH WITH ECONOMY OF COST.

The PATENT ROUGH PLATE is manufactured in sizes expressly for Ridge and Furrow Roofs, giving a span of from 8 to 19 feet, at a price not exceeding weight for weight that of common Crown Glass for being transparent, bends are unnecessary, and when used in Greenhouses no scrubbing required; its NON-TRANSPARENCY and strength render it eminently suitable for the Glazing of Counter Seats and Roofs of all kinds; also Factories, Warehouses, &c., for other purposes it is unrivalled. Sheets from 6 by 4 upwards.

For further information apply to Messrs. JAMES HARTLEY and CO., Wear Glass Works, Sunderland.
